Dr. Teresa Bergeson  
Old Capital Building  
P.O. Box 47200  
Olympia, WA 98504-7200

Dear Teresa Bergeson:

I have enclosed a letter addressed to you, dated November 8, 2004, which was submitted to the A+ Commission as a public comment. I am submitting the letter to you and request that you provide answers to my concerns that are outlined in the letter. I expect your office to rectify the situation by stopping the promotion of your theosophical beliefs and practices in our public schools. Based on my research into your activities as state superintendent it is apparent that you believe yourself to be divine and equal to a god with a mission to save humanity. Your inability to keep your religious beliefs separate from your work has hurt our children, our public schools, our communities. The only way to begin to salvage our schools from your invasion of constitutional rights is for you to immediately resign and request the resignation of Dr. Shirley McCune, Dr. Andrew Griffin and any other staff member who has knowingly supported the advancement of your religious beliefs and practices.

Please respond to the above request and enclosed document within two weeks.

Sincerely,

Nancy Vernon
