**FROM:** Shirley McCune *SMC*  
**RE:** Response to November 17, 2003 letter

---

In response to your most recent letter dated November 17, 2003, I wish to reiterate that the documents you refer to are private notes unrelated to OSPI business that were mistakenly placed in a box of LINKS project deliverables you requested to inspect. These notes are not deliverables but personal notes this is why they were removed from the box of LINKS project deliverables you requested to inspect. OSPI is not contributing funds to the building of a temple or promoting any form of religion within the public school system, nor does the agency have any plans to do so.

# Test Score Improvement

Gallup Poll

Phase

Focus

Classroom Characteristics

I. Awareness

a. Individual Standards Curriculum Alignment with classroom

High levels of Emphasis - Basic Skills

More attention to:

- Coverage of standards areas
- Time on Task
- Drill and practice

Professional Development - Understanding the sequence of basic skills development, content of basic skills development and the diagnosis of student needs.

b. Group - Teamwork in school alignment w/ others

Results: ~~was~~ increases in Test scores ~~to~~ resulting from <sup>more of</sup> doing what individuals and schools have been doing intensification of current practice.

- School scope and sequence
- More collaboration

II. Change

a. Individuals Begin to extend classroom practice

Emphasis - Cohesive, effective integration of curriculum and delivery of instruction using research based programs.

Shift to more focus on instruction and provision of varied ~~ind.~~ group programs based on student needs

## Professional Development -

- Effective structure
- Effective programs across basic skills and individual
- Management of group differences and needs

## b. Schools

See school as a

- system - provide classroom schools and individual interventions

More attention to programs of curriculum, instruction

and support for student learning

- family involvement before-after school interventions

- Summer school

##

Result - slower rates of improvement - improvement across all groups

## III. Maintenance

### a. Individual

### Classroom

Continuous improvement learning of knowledge and skills becomes more

Emphasis -  
Perseverance to higher levels of program quality

Putting more of the "pieces" together

effective and students develop deep understandings

and thinking skills

More emphasis on transfer of learning

## Professional Development -

Procedures for continuous group dialog, practice and feedback & reflection

## b. School

- Installation of policies to support high quality learning
- Methods of orienting and developing new teachers
- Setting higher goals for experienced teachers

## ~~Retention~~

System Change Policies and procedures for organizational development

Result - slow increases  
in test results - evidence  
of wider range of  
learning and increased  
thinking skills

## Temple Messages

1. Purposes -
  - Tribute To God
  - Tribute To Mankind
  - Stabilizing force for Earth
  - Interdimensional communications
  - Transform initiates

KH - "Haven and save. Do I first, and then you, fellow human beings, and you shall walk in the paths of glory and greatness."

2. Temple -
  - on drawing board for 2000 years
  - equal to the pyramids
  - alignment of ley lines and grid lines
  - exterior of pink granite - highly charged substance which emits currents connected to the sun's energy field
  - capstone of obsidian - communications
  - stand 450 feet in height - 500° square base
  - ceiling - apex - crystal chamber connected to another crystal chamber below the Earth's surface

3.
  - Survival of the planet is not assured
  - Minimizing the effects of total global devastation
  - Temple - assists in aligning + balancing planet's energies + raising its vibrational frequencies for moving into the 5<sup>th</sup> dimension.
  - Constructed to maximize the celestial energies into of Earth.
  - Produce results on enlightenment

4. Location in The Southwest U.S.

God's plan is perfect and includes harmony, peace, abundance and beauty.

5. Council Twelve Roles

- a. Seer - integrates higher thoughts & values of the Fifth Dimension into the structure
- b. Wise - bring commitment and strength to the bonds being formed among Council members
- c. Feminine role - strengths of the yin for stability
- d. Masculine role - strengths and weakness of the yang energy - carries the weight of humanity's struggle for the deliverance of the Temple on Earth
- e. Artistic - vibration of the frequency beyond the spectrum of the rainbow & brings this insight into the design of the Temple's structures
- f. Laborer - <sup>strives to find the</sup> keys to the Fifth ~~the~~ Kingdom & provide new insight
- g. Thief - qualities of stability & strength -
- h. Eccentric - ~~diving~~ design for the inner structure
- i. Producer - winnowed for the many
- j. Intrapective - learn the secret keys & codes to unlock the mysteries that made Atlantis great.
- k. Lawgiver - wisdom & strength for adhering to the laws of the Divine.
- l. Divine - bring gifts <sup>and</sup> wisdom from the Ascended Masters to Council members

6. Sacred geometry - The construction of the Temple is founded on the science of Sacred Geometry. Temple based on 12 - reduced to 3 that signifies God.

- Temple - sides - reduced to 3
- 4 sides -

7. Capstone - miniature pyramid

- beacon or antenna - signal the heavens of the return of the children of Tzift.

- must be of obsidian -

- dividing line between upper + lower dimensions

- Tip - emanate highest vibratory frequency - obsidian must resonate to tone of A

A - activates the pineal gland

- capstone introduce the key for transformation

8. Solomon's Temple - Temple be the rebuilt Temple.

- Direct Knowledge - understanding will travel to the structure from Solomon's Temple in Israel.

1-23-93  
# 13

9. Transformation of individuals - guided by Isis - allow for molecular diffusion.

2-21-93  
# 14

10. Only mathematical proportional frequency that is destined to resonate in all dimensional frequencies with Love + Light is that of the Trina.

- Trina is analogous to the Trinity. Key to understanding the release to Hi-100

- Temple must be built with Time structure on the outside,
- Time vibration will bring the resonance of the electromagnetic force field around the Temple. Time - mathematically provides portal for transmissions - - Spiritually, enhances the transformation process of the individual with the Higher Self.

3-21-93  
#15

11. Chambers stabilize the electromagnetic currents produced by the pyramid.
  - Lower chamber will stabilize the circular ~~flow~~ flow of the magnetic flux. Current move in a clockwise fashion as they approach ground level - reverse themselves when they reach the Divider line. lead to
  - Four underground passageways - control rooms
  - Must be built in a desert area
  - As human form transforms into the light body, it takes on new forms that are perceived only in the higher dimensions

## Spiritual Logic

### Temple Purposes

1. A Tribute to God, the Creator of All
2. A " " To humankind, & reflect the paths and accomplishments of humans throughout the ages
3. Stabilizing force to assure that the planet will not shift on its axis.
4. Interdimensional comm. center to allow Earth to communicate with other celestial bodies.
5. Transformation chamber to transform the physical bodies of initiates who are ready to journey on to higher commands.

Temple on drawing boards for 2000 years - sequel to the Pyramid structure

Alignment with ley lines & grid lines

Pink granite - highest charged substances

### 12 Roles

1. Seer - work to integrate the higher thoughts & values into the structure of the 5th Dimension
2. Wise - commitment & strength
3. Feminine - hold Yin energy
4. Masculine - hold Yang -
5. Artistic - spectrum of the rainbow.
6. Laborer - strives to find the key to 5th Kingdom & provide Council with new insights
7. Trusty - ~~stays~~ stability & strength -

6. Eccentric - design for inner structure
7. Producer - wayhouses
8. Introspective - secret keys & codes
9. Law Givers - wisdom & strength while belonging to laws of The Oneers
10. Divine - gifts & wisdom from Ascended Masters

Sacred Geometry - Each number has a vibrational value  
 Temple = #12 which is reduced to 3 - God

4 - raises souls to 5th dimension

Opal one - beacon of light - signals heavens of the return of the children of light

Obidian - ~~more~~ connects lower & higher worlds

Dividing line - between upper & lower dimensions  
 resonates to tone of A. Resonates to 3rd eye position

Level 2 ceiling - 12 great dividers - 18 pillars - aligned north & south. Gold leafed.

Obidian - hard stone crystalline nature -  
 Conductor of messages sent on beams from Galactic  
 Command.

Pink granite - moves currents from 3rd world to 5th;

Everything comes into existence thru the union of  
opposites

Earth - The cube -

Air - The Octahedron

Water - The Decahedron

Fire - The Tetrahedron

Cosmos - The Dodecahedron

4 Alchemical elements - represent the causal characteristics,  
the spiritual attributes - elements of nature & man

Earth - Solidification of material - Cube

7<sup>th</sup> factor is value & coldness produces solidification.

Frequency of vibration determines their composition &  
manifestation - As vibrations change so will state  
of manifestation. Atoms smallest. Matter is energy  
condensed.

Air - Breath of Life - Inspiration - provides  
animation. Transforms inorganic matter into its organic  
essence.

Breath of life - cannot manifest apart from air, but only  
through it -

" Doorway of enlightenment,

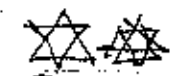

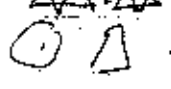

"No mortal shall pass into antiquity until the thinking of the initiate has opened."
